(5) None of these

3. 'C' goes to the hospital with his mother 'B' to console 'D', who is the sister of C's sibling's father. How is D related to B?
(1) Daughter (2) Sister-in-law
(3) Sister (4) Mother
(5) Cannot be determined

4. If A's father's mother's only child's only daughter is B, then how is A related to B?
(1) Nephew
(2) Father
(3) Brother
(4) Brother-in-law
(5) Cannot be determined

5. Ganesh and Naresh started from a point A. Ganesh went towards the North and Naresh went towards the West, both are travelling with the same speed. After some time, both turned to their left and walked a few steps. If they turned to their right again, towards which direction are Ganesh and Naresh facing with respect to the point A?
(1) North-west, South-east
(2) North-west, South-west
(3) North-west, North-west
(4) South-west, South-west
(5) None of these

6. To reach Bhuranpur from Sanirpeth, one has to travel 3 km from Sanirpeth station towards the East, then 9 km after taking a right turn, travel 1 km after taking a left turn and then travel 9 km after taking a right turn. Then, 1 km after taking a left turn and finally turning left once more, he has to travel for 10 km more. How far is Bhuranpur from Sanirpeth station?
(1) $\sqrt{89}$ km (2) $\sqrt{68}$ km
(3) $\sqrt{75}$ km (4) $\sqrt{88}$ km
(5) None of these

7. My school is to the East of my house. My father's office is to the South-west of my school. A park is to the South of my school. Towards which direction is my house located with respect to the park?
(1) East (2) North-west
(3) South-east (4) South
(5) North-east

** ***Directions for questions 8 and 9:*** These questions are based on the following information.

L is the daughter of Q. M is the wife of Q. P is the sister of L. N is married to P. O is the mother of M. R is the only daughter of N.

8. How is R related to L?
(1) Daughter (2) Cousin
(3) Niece (4) Sister-in-law
(5) Cannot be determined

9. How is Q related to O?
(1) Brother-in-law (2) Cousin
(3) Son-in-law (4) Sister
(5) Brother

** ***Directions for questions 10 and 11:*** These questions are based on the following information.

H is the mother of only K and J. J is married to M. M is the sister-in-law of K. K is married to T. P is the father of J. K is the brother-in-law of Q.

10. How is K related to P?
(1) Son
(2) Father-in-law
(3) Daughter
(4) Son-in-law
(5) Daughter-in-law

11. If N is the husband of Q, then how is N related to T?
(1) Son-in-law
(2) Sister-in-law
(3) Daughter-in-law
(4) Brother-in-law
(5) Cannot be determined

Directions for questions 12 and 13: Select the correct alternative from the given choices.

12. If R is married to M, O is the father of M and Z, Z is the only daughter of T, I is the only child of R, then which of the following statements is not definitely true?
(1) Z is the aunt of I.
(2) M is the son of T.
(3) I is the granddaughter of O.
(4) O is the father-in-law of R.
(5) T is the wife of O.

13. If B is the brother of I, A is the father of I. D is married to A and N is the mother of D. then which of the following statements is definitely true?
(1) I is the sister of B.
(2) D is the husband of A.
(3) I is the grandson of N.
(4) B is the son of D.
(5) N is the aunt of A.

** ***Directions for questions 14 to 17:*** These questions are based on the following information.

T's sibling is married to M's daughter. O is the wife of M. G is the brother of M's only son-in-law. X is the only brother of G. N is the mother of T. C is the only sibling of N's daughter-in-law. Both G and C are unmarried. F is the nephew of C. N has only three children. T's spouse has no siblings.

14. If K is the sister-in-law of T, then how is K related to X?
(1) Wife (2) Cousin
(3) Sister-in-law (4) Daughter
(5) Aunt

15. How is F related to N?
(1) Husband (2) Grandson
(3) Son-in-law (4) Brother-in-law
(5) Cannot be determined

16. If H is the son of T, then how is H related to G?
(1) Uncle (2) Cousin
(3) Father (4) Nephew
(5) Brother-in-law

17. How is O related to C?
(1) Sister (2) Mother-in-law
(3) Daughter (4) Aunt
(5) Mother

** ***Directions for questions 18 to 21:*** Certain symbols are used to represent relations as follows.

P @ Q means P is the parent of Q.
P # Q means P is the sibling of Q.
P $ Q means P is the spouse of Q.
P % Q means P and Q are from the same generation.
P & Q means P is the child of Q.
P ^ Q means P and Q.
For example: P ^ Q # R ⇒ P and Q are the siblings of R.

Certain statements are given below using these symbols. Analyze the statements carefully and answer the following statements.

T & R $ K @ M # X, A % J $ U@ K, R ^ F & D

18. If K is the wife of R, then how is R related to X?
(1) Mother (2) Father
(3) Sister (4) Brother
(5) Nephew

19. If A is the husband of D, then how is A related to T?
(1) Uncle (2) Grandfather
(3) Grandson (4) Brother
(5) Son

20. If M is the only niece of F, then how is T related to D?
(1) Grandmother (2) Grandson
(3) Nephew (4) Brother
(5) Son-in-law

21. How is J related to R?
(1) Mother-in-law (2) Father-in-law
(3) Sister (4) Mother
(5) Cannot be determined

** ***Directions for questions 22 and 23:*** These questions are based on the following information.

Person E took ₹300 from his father Y. He kept ₹36 and gave the remaining amount to his daughter M. M kept ₹54 and gave the remaining amount to T. T kept ₹80 and gave the remaining amount to his/her grandmother X. X took ₹10 and gave the remaining amount to her daughter-in-law G. G is married to E. G took $1/4^{th}$ of the amount she received and gave the remaining amount to E's only sister-in-law, who took ₹16 and gave away the remaining amount to L. E has no siblings.

A#B – A is the brother of B.
A$B – A is the spouse of B.
Certain statements are given below using the above symbols. Analyse the statements carefully and answer the following questions.

F % G @ T # M $ L

22. How much amount did T's brother-in-law receive?
(1) ₹135 (2) ₹129
(3) ₹74 (4) ₹142
(5) ₹108

23. How is L related to G?
(1) Son (2) Son-in-law
(3) Brother-in-law (4) Brother
(5) Grandchild

** ***Directions for questions 24 to 26:*** These questions are based on the following information.

There is a PQ axis in such a way that P is in the south and Q is in the north direction. There is a LM axis in such a way that M is to the east of L. PQ axis and LM axis intersect at a point D in such a way that the distances between PD is 15 m, DQ is 17 m, DL is 12 m and DM is 24 m.

Raman starts from point Q and walks 20 m in the east direction. Charan starts from point M and walks 5 m in north direction and then turns his left and walks 4 m and again turns his left and walks 22 m.

Raju starts from point L and walks 20 m in the south direction and then turns to his left and walks 32 m.

24. Point P is in which direction with respect to Raman's final position?
(1) South-east (2) South-west
(3) West (4) North-east
(5) South

25. In which direction is Raman's final position with respect to Raju's final position?
(1) North (2) North-east
(3) West (4) North-west
(5) South
